Dear Mr. Michaels:

As a consultant for National Minority Television, Inc., thank you for your interest in our proposal to provide additional television service to Columbia, South Carolina. National Minority Television is a non-stock, nonprofit corporation and does not do advertising.

Our proposal is to operate on Channel 51 using an Andrew 32 bay antenna located at 500' Agl. Rack space is also required as is land for a TVRO. Electricity would be on our own meter and a local technician/engineer would be hired on contract to maintain our equipment. We are interested in a long term lease, (five (5) years) and a couple of like option periods. Enclosed are spec sheets relating to the proposed equipment.

The FCC has announced that the window will open on December 4, 1989, for the accepting of LPTV applications. Reduction of size of the antenna is acceptable and those are so marked. If questions arise, please call me at (714) 665-2128 or use the following address for correspondence: I.T.S.O., 1312 Langdale LN, Tustin, CA 92680. Your prompt attention is appreciated.

Sincerely,

*George D. Sebastian*

GEORGE D. SEBASTIAN  
LPTV Director

ENGINEERING DEPARTMENT  
MEMORANDUM

DATE: OCTOBER 10, 1990  
TO: PAT ST. JOHN CLERKE  
FROM: EDDIE H. SILLS  
SUBJECT: EQUIPMENT PURCHASE

DEAR PAT:

BELOW ARE THE PRICES OF TWO PIECES OF EQUIPMENT THAT I WOULD LIKE TO PURCHASE FOR KMLM-TV. THIS EQUIPMENT WILL BE USED TO PLAY PROGRAMS FROM LOCAL CLIENTS AND WE WOULD LIKE TO HAVE IT BEFORE PRAISE-A-THON IN NOVEMBER. WE HAVE HAD MANY INQUIRES AS TO OUR CAPABILITY TO AIR 3/4" TAPES. BUT ALL WE CURRENTLY HAVE ARE SUPER VHS.

1 - SONY VO-9850 3/4" VCR @ \$7045.00

1 - HOTRONICS AF 71 TBC @ 2825.00

TOTAL COST \$9870.00

TO THIS AMOUNT WE WOULD HAVE TO ADD APP. 50.00  
FOR SHIPPING. =====

GRAND TOTAL OF APP. \$9920.00

PURCHASE ORDER TO BE MADE OUT TO:

LUBBOCK AUDIO/VISUAL  
2120 AVE. Q  
LUBBOCK, TX. 79405  
ATTN: STAN

AGAIN I REQUEST AUTHORIZATION SOON AS PRAISE-A-THON IS JUST AROUND THE CORNER.

BEST REGARDS,

EDDIE H. SILLS

Fax # 619-630-0591

REFERENCE: Rental of tower space and building for low power UHF TV Station.

Dear George,

It is good to hear that you are ready to proceed with your station on this tower. We have saved you a space at the tower top for your antenna and space on the tower face to hang your 1 5/8" hard line. We have a 50 year lease on this tower site that is in force until the year 2040. We have a concrete block building with concrete floor and roof that you may house your equipment in. The satellite dish may be pole mounted inside the fenced in area or there is room available outside the fence approximately 30 ft. away from the building. We have saved a 6 ft. wide X 4 ft. deep X 7 ft. high space for your equipment. You would be responsible for providing your own AC power for your equipment.

Enclosed is a copy of our standard lease agreement. We would consider using your lease form if you have a problem with ours. To accommodate your antenna on our tower would require changing the top guy wires from 3/8" to 7/16", adding additional fill around outer anchors and possibly new side arms. Estimated costs including labor should be \$2,000 to \$2,500. See attached engineering report from Pirod. As we agreed upon in October, 1991 you would be responsible for the expense of these tower changes.

The monthly cost of the tower lease is \$350 per month payable annually or semi-annually. F & L Electronics is a full line service company with 4 first class FCC Licensed techs on staff. We would be happy to assist in the installation of your equipment or provide preventive maintenance or service as needed on your equipment.

Sincerely,

F & L ELECTRONICS, INC.

---

Dear Mr. Perry,

Let me introduce myself as the replacement for George Sebastian. I believe the last time you were doing business with George, I was just coming on board in January.

Please forgive the long period of silence. Yes, we are still very much interested in establishing a Lease Agreement.

Question:

Did anyone discuss with you our satellite dish requirements?. I don't see that addressed.

We need space for a 10 foot diameter dish within 200 feet of our transmitter. The dish would be mounted on a 2 foot cube of concrete.

I will follow-up this FAX with an information sheet which will provide an overview of all our requirements, to help you and to help assure nothing is overlooked. It will provide the information you requested on your information sheet, plus additional information.

BEST REGARDS,

  
George H. Horvath  
Consultant

Brian,

Please request an extension to our Construction Permit for Wilmington DE  
Wilmington, DE W26AU BMPTT-920605JC

JUSTIFICATION:

We have committed \$65,013.00 dollars in equipment to this station.

In addition we are in the final leg of completing a lease agreement. We have signed an agreement and are awaiting the signatures from the Lessor.

In addition we have invested in a survey trip by our personnel from California and are now assuming the additional costs for new engineering which will lay the foundation for a minor modification to the new site we have selected.

We anticipate completing construction within the six month period of a newly granted CP
